Your Gateway to a Smarter Home

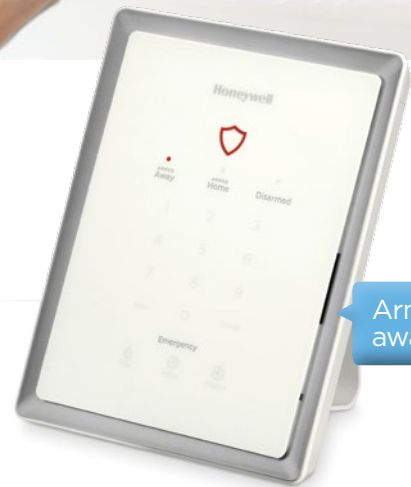

Lyric[™]
Life in tune.

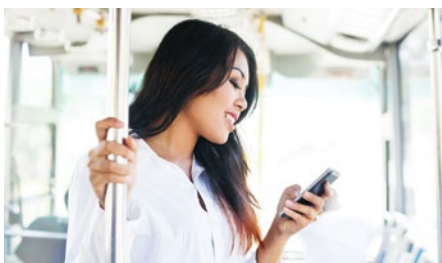

Lyric™ Gateway

Security. Comfort. Life. Perfectly connected.

Ideal for today's mobile, on-the-go lifestyles, Lyric is designed for how you really live—with a wireless, connected platform that makes your home safer, smarter and more comfortable. With Lyric Gateway, you can enjoy easy, affordable, automatic control of security, garage doors, locks, lights, thermostats and more—without having to remember to do them. Or, just control things from your everyday mobile devices or a sleek, easy-to-use interface whenever you want.

Arming to away mode.

Mobile Control

Turn your smartphone into a smart home. View live video, control security and home automation and more, whether you're at home or on the go*.

Simple Protection

The wireless keypad lets you control security, summon emergency response and get system updates virtually anywhere in your home. Sleek and stylish, it looks great on walls, tabletops or nightstands.

Lyric Gateway works via cellular, Wi-Fi® or Ethernet, with a flexible design that lets you place it virtually wherever you want in your home and take it with you if you move.

We're Talking Technology

Lyric provides friendly, informative voice guidance—making operation simple by walking you through each and every step.

Start Small. Dream Big.

Lyric can bring your home to life, with a custom solution that works with your lifestyle and budget and grows with your changing needs.
